MIXED MEDIA

by Broste Copenhagen

Throughout time artists have been intrigued by the tactile elements of Mixed Media. They lend themselves to our exploration, through composition and synthesis of any combination of forms, encouraging us to find unique ways to use compelling colours and shapes.

This season you will find our way in this continuously evolving form of art. Through tactility, silhouette and diversified unity, our ambition is to create a contemporary collection. You will not only find it visually appealing, but also an interesting sensory experience that you intuitively feel connected to. We hope to evoke your participation and nourish your fascination of interior design in the conjunction of past and present.

Like all art, it is all about freedom to express yourself and Mixed Media are consistently pioneering. There are no aesthetic similarities. If you can dream it, you can create it.

CANVAS

A dining scene featuring a round wooden table. On the table, there is a meal consisting of a bowl of cereal with a spoon, a glass of milk, a small bowl of salt, a bowl of oranges and lemons, and a teapot with a cup. To the right, there is a tall white candle in a glass holder and a vase filled with yellow and white flowers. A wooden chair is pulled up to the table. The background shows a window with white curtains.

BAY SOFA

Design by Omayra Maymó

PEOPLE WE ADMIRE

"When designing the sofa, I took inspiration from the traditional white stucco, curved Mediterranean seaside architecture, very soft and laidback."

The studio of Omayra Maymó explores the intangible relationship created between the object and its user departing with emotional aspects. The Spanish designer utilizes the natural qualities of materials, mixing narratively driven design with highly functional objects, her work promotes emotive-based design.

**Bay sofa**

"There is a duality present through the double language formed by the lower main structure and the curvier and organic seat and backrest cushions, which aim to represent this merging of Scandinavian and Mediterranean spirits, and which provide a subtle dynamic design", explains Omayra.

Rounded edges and puffy cushions create a laid-back, fluid silhouette with a relaxed tone. The Bay sofa is all about comfort and a cushioned, welcoming look. The low frame has a distinct lounge feel, reinforced by the deep seat and low armrests. The wide, upholstered feet are a bold detail that makes for a unique silhouette.

The fabrics and tones used for its upholstery also came from this luminous, soft inspiration. A delicate cotton linen mix fabric was chosen, with a soft touch and a fine texture, in rich, warm, neutral tones. "I wanted to transmit a summer indoor-outdoor lounge-by-the-sea feel, very inviting and welcoming, yet keeping a very Scandinavian, pure and minimal essence."

In all, this sofa represents a calm and peaceful place to gather strength and find inspiration. It combines refined comfort, calm look, and optimal flexibility in a timeless design.

GINE LAMPS

Design by Ulrik Nerdentoft

"I was inspired by a tailor's mannequin, thereby the name, Gine, which it's called in Danish, where I was triggered by the ease of changing expression. Imagine insuring that kind of dynamics to a lamp with vibrant colours and materials."

PEOPLE WE ADMIRE

Ulrik Nerdentoft entered the Danish design scene almost two decades ago after graduating from the Danish Design School in 2000. Ulrik established his own design studio and has earned international recognition and received various design awards for his products and interior design.

Gine lamps

The Gine Lamp series by Danish designer Ulrik Nerdentoft joins together the ideas of pragmatic and functional design with a playful new perspective to the modern lamp.

Nerdentoft's design philosophy is honest and hands-on with a clean and minimalistic language. While mindfully balancing aesthetics and functionality he lets the nature and quality of the materials influence the form and usability of the design, generating objects with a clear sense of timelessness. "What I like the most about the Gine Lamp Series is that it is so intuitive and straightforward. You have something simple and minimalistic, that allows you to transform it - redress it and get a new expression matching your interior."

The series consists of three lamp bases for the table, floor, and ceiling which can be paired with all the Gine shades. The shades are available in white opal glass and five colours in metal across two sizes, allowing you to release a playful element to your interior design. Ulrik's finally notes "It doesn't just sit there, it changes your space, and it changes the way you interact with your space."

SVANTE SHELVES & NINNA TABLES

PEOPLE WE ADMIRE

Design by Maiken Lindhardt

"It started as an idea of creating a connection between the industrial look and a soft cozy feeling."

Maiken Lindhardt holds a master's degree in furniture and product design from The Royal Academy of Fine Arts in 2018 and is a remarkable upcoming designer with an established studio based in Copenhagen.

Svante shelves

"The idea behind the Svante series was to design small storage units with a simple expression and a high level of functionality," tells designer Maiken Lindhardt. Noting on the expression of the design, Lindhardt explains: "The two shelves evolved from an ongoing study of compositions and functional needs - by modelling levels and surfaces," and adds: "I wanted to see if it was possible to achieve several types of storage solutions with a sculptural composition."

The Svante shelves are available with and without a mirror across two colours, allowing you to use the design alone or to have a mixed wall installation.

"Every inch of the design is optimised to give the user a perfect combination of places to display objects as well as hide them away," says Lindhardt. They are crafted in Europe in powder-coated steel and are elegantly mounted to the wall by a suspension rail - a detail Maiken Lindhardt is quite fond of.

Ninna tables

Maiken Lindhardt is also the designer behind the Ninna Table series which is designed to make a clean aesthetic addition to any home or any office. This is achieved through the combination of material, colour, and form. Along with the strong visual expression, the tables are carefully thought out to meet functional needs in large and useful storage spaces.

The tables come across three colours and are crafted in Europe in matte powder-coated steel. The collection consists of two tables that are proportioned to either stand alone or in combination with each other and by adding the pillow to the Ninna Table High you can change it into a stool.

GEORG VASES & VILS PLATES

Design by Maria Berntsen

PEOPLE WE ADMIRE

"I wanted to reinterpret and create a classic vase with an iconic appearance that captures its position in the room both as a unique object as well as a unified whole."

Georg vases

"The Georg vases each present a way to display flowers through each of their sculptural expressions along with their graphic character when not in use", tells designer Maria Berntsen about her new design. On the shape, Berntsen notes, "The function and form pleases to different flowers and plants. Add a solitaire flower to the closed vase, a spring branch to the cylinder, and let a bouquet or an orchid unfold in the open vase. The flowers will be carried in different ways and create a new expression."

The series is made with a solid base and clear top in mouthblown glass and comes in three burnt shades; dark brown, dark rose, and amber adding a subtle toned interplay between the transparent and the opaque surfaces.

Vils plates

Vils is a series of stoneware plates in natural complementary colours with a welcoming surface and edge, which, despite the stoneware weight, has a visual ease that opens up for use. "It is the intuitive feeling of the material's nature and the sensuousness of the form that is important to me", explains Maria Berntsen who is the designer behind.

"It is created to gather people around the table and create a welcoming tableau for foods to be shared" adds Berntsen. "Just as it can be the unifying surface in the living room for the candle or the jewelry in the bathroom. I strive at having multifunctional things in my home - just to have fewer things," says Berntsen.

NORDIC BISTRO GLASSWARE

PEOPLE WE ADMIRE

Design by Aurelien Barbry

"Design is an exercise where you take the simplest things in your daily life and ask yourself how they could be done differently."

Stackable drinking glasses and jug

Aurelien Barbry is an acknowledged industrial and interior designer with a master's in Industrial & Interior Design from Ecole Camondo, Paris 1996 with his own studio in Copenhagen and New York.

glass

White wine
glass

Stackable drinking glasses and jug

Champagne
glass

Red wine
glass

White wine
glass

Nordic Bistro

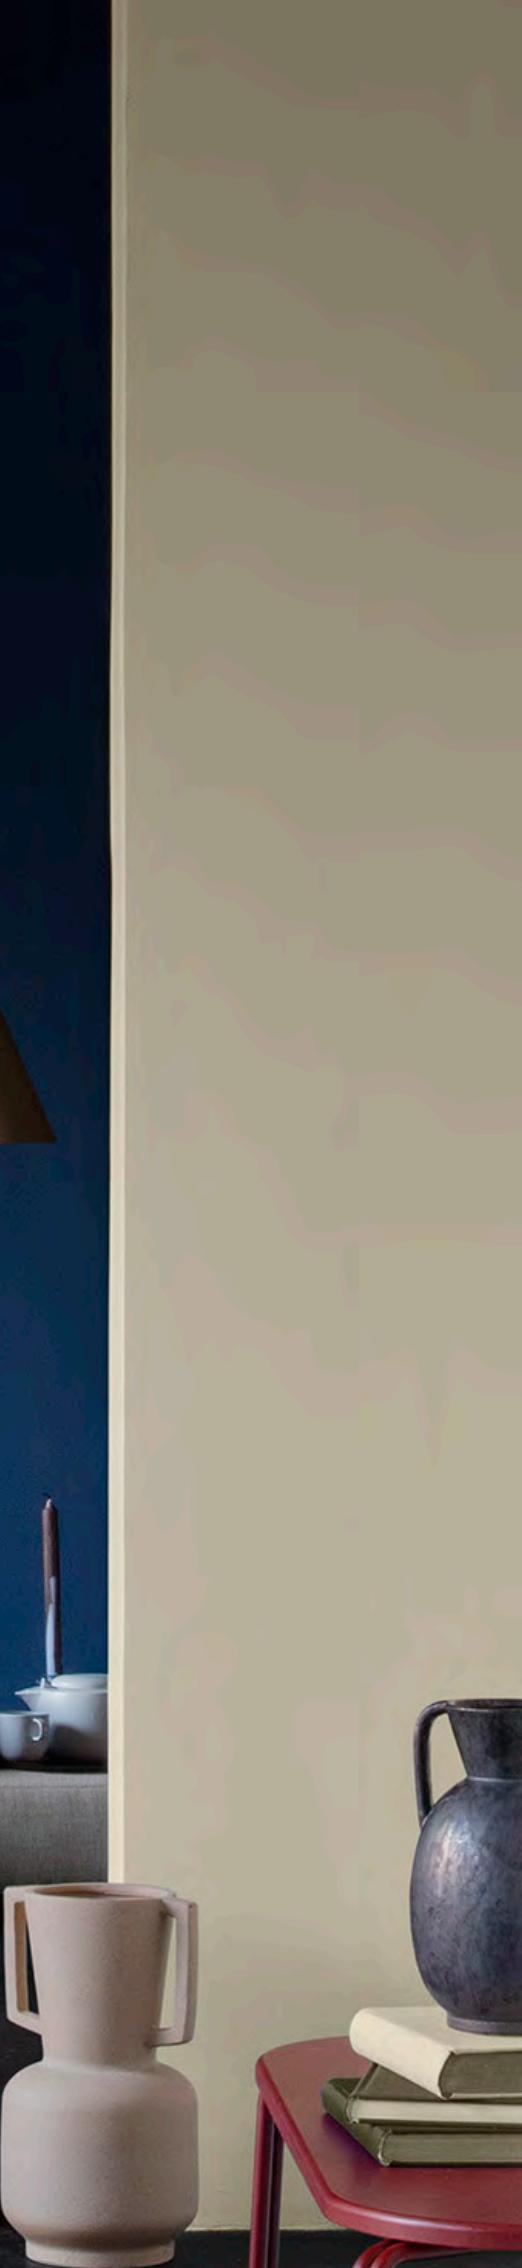

On his idea for Nordic Bistro, Barbry notes: "I wanted to bring a statement to the table which was both stackable and easy to dish because both space and time is limited at home and at a restaurant."

This season, these refined pieces made from hand-blown glass are now available in clear glass with a smoked base. The smoked series is contemporary, while the new colour palette brings a classic look while maintaining a recognisable outline. A distinct, connective addition to the table - to serve a glass of water or juice for breakfast - the carafe comes with a simple and minimalist silhouette characteristic for the series.

UPHOLSTERED FURNITURE

BAY SOFA

Design by Omayra Maymó

Designed by Omayra Maymó, the Bay sofa's rounded edges and puffy cushions creates a laid-back, fluid silhouette with a relaxed tone. This sofa is all about comfort and a cushioned, welcoming look. The low frame has a distinct lounge feel, reinforced by the deep seat and low armrests. The wide, upholstered feet are a bold detail that creates a unique silhouette.

The sofa consists of an upholstered base made up by the lower frame and backrest, two seat cushions and two back cushions. The base is constructed with an internal wooden frame and spring system, which is covered in various layers of foam to achieve an overall soft, comfy look. The front of the backrest has a more rounded and softer feel than the rest of the base, it has a thicker foam layer and extra down padding to achieve this softness. The seat cushions as well as the backrest are made from high-density polyurethane foam, covered with down padding to provide the same extra softness.

MATERIALS AND CONSTRUCTION

Textile upholstery: Lucca FR textile, 11% Polyester, 27% Cotton, 42% Viscose, 20% Linen
20.000 Martindale

Frame: Chipboard frame and solid in pine and birch

Foam: Cmhr foam and down padding consisting of 50% feathers and 50% policotton foam

Feet: Black wooden feet

LAGOON

The Lagoon Module is a piece of furniture with a contemporary yet idiomatic silhouette in peerless textiles in calm natural colour tones.

More of a sofa than a lounge

The low frame has a distinctly lounge feel. Nevertheless, the combination of a high back and short seating depth welcomes a comfortable posture for long conversations as well as relaxation.

High-density foam has been used for extra softness and optimal seating comfort and the solid frame ensures that the Lagoon Module is a piece of furniture that will last for years.

The chair demonstrates the vast potential of working with simple, curved outlines which looks as elegantly from the back as the front – ideal for standing freely in a room, creating a separate, enclosed area. The upholstered cylinder with gently curved backrest and sides retains the sense of being cradled and supported, while inviting complete relaxation. The slimmed-down proportions make it perfect for smaller spaces such as apartments, hotel rooms and workplaces.

WIND

Inspired by the seasonal changes in Nordic nature, the Wind collection brings a subtle decadence to the signature aesthetic of Broste Copenhagen with its simple lines, tactility, and welcoming silhouette.

The WIND collection offers interesting furniture pieces with a fine balance between Nordic minimalist shapes and soft expressivity. The pieces are upholstered with thick velvet, making them as exceptional to look at as they are thrilling to touch. The colour palette has been chosen to accentuate the designs and the materials.

FURNITURE & OUTDOOR

ODA

The Oda Collection offers a wide range of versatile seating suiting to any setting and every occasion and a complete look combined with the Oda table. The visual signature of the double-piped steel base gives every piece of the series a vigorous and easy recognizable silhouette.

Now offered with a form-pressed ash veneer backrest, the Oda chairs is angled for comfort and support. Optional textile upholstery and backrest solutions add yet another level of comfort to the series and makes it adapt seamlessly into any setting.

The Oda table is a highly functional drop-leaf table inspired by the shaker folding table. The sturdy matte powder-coated construction and beautiful veneered surface make this table the remarkable centerpiece. Transform the table to fit any setting or room. The Oda collection is practical, space-saving and versatile.

TILDE

The terrazzo look is trending, and the beauty is that it goes with everything. Design and material converge in Tilde series which is light in silhouette and intricate in detail.

Defined by a sustainable tabletop made of 30% eggshells and 70% recycled resin, which is uniquely speckled in pattern and colour completed with the powder-coated frame.

LAMPS

GINE MIX & MATCH

The series consists of three lamp bases for the table, floor, and pendant which can be paired with all the Gine shades. The Gine base and shades are sold separately. The shades are available in white opal glass and five colours in metal across two sizes.

The Gine Lamp series by Danish designer Ulrik Nordenstoft joins together the ideas of pragmatic and functional design with a playful new perspective to the modern lamp.

Follow following steps:

- 1: Pick the base type
- 2: Choose between two sizes of shades across six colours
- 3: Transform the lamp with different colours, as your home decorations change.

	Base	Shades	Lamps
Pendant w. small / large shade		 	 
Table lamp w. small shade			
Floor lamp w. large shade

TABLEWARE

New

TABLEWARE / NORDIC VANILLA

Speckled like vanilla milk, the smooth yet lustreless surface characterizes Nordic Vanilla. This is our new tableware collection, which derives from our popular Nordic lines and devotion to beautiful glazes and coherent design.

Every piece embodies the characteristics of the Scandinavian design by creating a calm and inviting aesthetics around any meal.

The series consists of tea pots, a milk jug, mugs and cups as well as bowls and plates in several sizes. Nordic Vanilla is glazed by hand and therefore each piece varies a bit in colour and expression.

Create a classic table look with light and airy off-white shades and give the table a timeless calm expression or bring Nordic Vanilla together with pieces from our other series of tablewares for a table setting that feels collected and curated with a unique identity.

TABLEWARE / NORDIC SAND

Nordic Sand is the descendant of our popular Nordic Sea collection, epitomizing the same organic designs in natural sand-like nuances for a different expression. The colour of the glaze combined with this particular firing process creates a look that perfectly resembles the erratic sands of the wind-swept Nordic seashores. The Nordic Sand design is simple, raw and aesthetically pleasing at the same time.

Every piece is unique, as the glaze responds to the shifts in the firing process, which results in different textures and colours.

TABLEWARE / NORDIC SEA

Picture the colour scale that captures the shades of the North Sea on a stormy day. Nordic Sea provides clear associations to crashing waves and foamy whitecaps, summing up the unpredictable ways of the northern seas. The design and look is unique yet classic and is equally perfect for both festive occasions and everyday use. Add a personal touch and mix Nordic Sea with our additional Nordic selection.

The glaze is very sensitive to conditions of the firing, and the result is varying textures and colours. The individuality of the tableware items is part of the overall look.

TABLEWARE / NORDIC COAL

A strong expression and organic shapes constitute the foundation of this selection. Nordic Coal is a development of our popular Nordic Sea and Nordic Sand tableware. This strong and unique selection is inspired by the power of nature and its beautiful raw materials, making it the perfect fit for a cosy Nordic home. All pieces are unique, with a variety in textures and colours. The individuality of the tableware items is part of the overall look.

Mixing this selection with our additional tableware selections such as Nordic Sand or Copenhagen is ideal if you want to soften up the look and create a contrasting expression.

TABLEWARE / ELI

The minimalistic Eli collection is characterized by its round edges and soft colours, which gives connotations to the modern Japanese tableware. Fine and refined. Japanese culture has a certain aesthetic to it that is entirely its own, and there are few places where this is more evident than the dining table.

The Japanese inspired collection has above all an aesthetic utility and consists of five ceramic items; two cups with or without handle, a small charming jug, a bowl and a rectangular plate. The collection is designed in five different coloured glazes, which give the collection a playful touch where the reactive glaze creates an organic feel and ensures not two items are exactly alike.

The playfulness doesn't stop here. Only the soft blue has a glossy glaze - reflecting light and adding vivid accents to the surfaces. The matte finish of the other items is unreflective and opaque, and has a subtle texture to its surface that is reminiscent of natural stone.

The vivid and soft idiom of the Eli tableware creates everyday design joy and invites to mix and match with the colours and other tableware. They complement one another beautifully and are perfect for creating a unique and stunning table.

TABLEWARE / LIMFJORD

The Limfjord is a unique inlet separating the North Jutland Island from the rest of Jutland in Denmark. From above the curvaceous coastline is beautifully outlined and going under waters a captivating underworld of limestone is revealed.

The new tableware series is inspired by Limfjord's seafloor. The organic shapes and soft tones of the plates, platters and mugs are inspired by the mussels, oysters, and cockles from the grand and silent world underneath us. Mix and match it with other tableware and bring an effortless expression to the table.

TABLEWARE / GRØD

The Grød x Broste Copenhagen selection consists of fifteen unique designs. The collaboration between Grød and Broste Copenhagen is all about exploring and challenging the Nordic traditions - with a focus on traditional minimalist designs and a modern and curious approach. Broste Copenhagen's knowledge about design inspired by the Nordic nature combined with Grød's passion for developing modern and culinary porridge was the perfect foundation for collaboration on a shared dream.

TABLEWARE / SANDVIG

Dream of coastal walks with the Sandvig collection. This is a beautifully finished range of contemporary pieces that radiate seaside. Taking inspiration from the beautiful beach Sandvig, situated on the Danish island of Bornholm.

The seashell-like grooves and delicate structure imbue the entire collection, perfectly encapsulating the shores of Sandvig. Every item is handmade and completely unique with a variable finish of textured porcelain glaze.

TABLEWARE / SALT

Embrace your inner minimalist with our elegant Salt collection. With a focus on classic shapes, elegance, and edginess, this collection is characterized by its white special glaze and beautifully hand-painted black rims.

The unique look of each piece is achieved with a special glaze, which in the firing process develops a distinctive texture and colour. With an option of dots, the collection can be eclectically mixed for a personal table design. This collection is the perfect choice if you are looking for classic yet modern tableware. Its soft look and organic shapes make this selection perfect for a minimalist and nifty table.

TABLEWARE / ESRUM NIGHT

Esrum Night is an avant-garde development of our well established Esrum tableware collection, inspired by the mysterious darker days. The sombre brown nuance excels at bringing out the earthy tones of the fall, ideal for setting an immaculate table setting on those cosy dinner nights. All pieces come in classic modern shapes and may vary in colour and texture due to the erratic firing process.

TABLEWARE / ESRUM

This Nordic minimalist tableware collection is inspired by Esrum, a small Middle age town on the island of Zealand known for Denmark's second largest lake. Taking inspiration from the bright sky reflected in the dark waters creating a stunning view with great contrast. All pieces come with two diverse textures in a white and dark ivory glaze, which react individually to the firing process, adding another dimension - just like looking into the deep of Lake Esrum.

OUR PRODUCTS

Sustainability, design and quality are all part of the same solution. We believe in longevity and continuously strive for sustainable quality and acting responsible in all our activities.

Our designs should be aesthetically enduring and durable, so they will retain their value over time and be treasured until it is time for the design piece to be resold or passed on.

To ensure the greatest possible enjoyment from our designs and the longest lifespan, it is important that it is properly looked after. Please find all relevant information about our material descriptions and care instructions for our designs at www.brostecopenhagen.com as well as our certifications.

PACKAGING

At Broste Copenhagen our packaging has begun a journey of transformation. First impression lasts and meeting our gift boxes in stores or unboxed at home is important to us. Therefore, many of our products will be delivered in new and refined boxes. But not without ensuring our environmental responsibility.

We are a FSC™-certified company (FSC-N002181) and we aim to use only FSC™ certified recycled paper in our packaging. Recycled paper is the greenest option, it uses less energy, water, and produces lower carbon emissions than the manufacturing of new. By using FSC™ certified new materials we are certain to support responsible forestry by joining forces with all other companies in the FSC community. About 30% of our giftboxes come in recycled or FSC™ material, something that we are working on increasing.

In 2020 we chose to look into our use of wrapping material at our warehouse. All the goods that need to be wrapped for extra security during transportation are now being wrapped in a recycled material.

We have taken our first steps and there is still some way to go.
